Marine Oils Gulfmar AC

Product Description:

Gulfmar AC Oils (Alkaline Crankcase) are a range of alkaline detergent crankcase system oils for use in highly rated crosshead marine diesel engines particularly those with oil cooled pistons, where the sulphur content of the used distillate fuels is below 1 %. **Gulfmar AC Oils** are formulated from high quality paraffinic base oils and the latest additives. **Gulfmar AC Oils** are also suitable in equipment where an SAE 30 or 40 oil is specified, such as certain geared transmissions, reversing clutches, oil lubricated stern tubes, seals and other auxiliary equipment.

Features/Benefits:

Gulfmar AC Oils offer reduced deposits and formation of sludge, excellent protection against salt water, minimal deposits in under-piston area, excellent oxidation stability and resistance to thickening and long oil service life.

Recommended Applications:

As crankcase oil in crosshead diesel engines and some marine transmissions.

Gulfmar AC	307	407
SAE/TBN	30/7	40/7
Product Code	1874	1875
Density @ 15°C, kg/m ³	889	890
Viscosity @ 100°C, mm ² /s	11.3	14.3
Flash Point, °C	>220	>220
Pour Point, °C	-18	-18
TBN, mgKOH/g	7	7
