2-stroke Motorcycle Engine Oil Gulf Green 2T

Product Description:

Gulf Green 2T is an environment friendly, fully synthetic biodegradable 2-stroke engine oil for use in high performance air cooled 2-stroke gasoline engines. It is blended from premium quality esters and ashless performance additives to provide excellent engine protection and cleanliness in 2-stroke motorcycle/scooter engines even under harsh operating conditions. The product exceeds the international specifications of API TC and the requirements of leading global 2-stroke motorcycle/ scooter manufacturers.

Features/Benefits:

Gulf Green 2T advanced additive technology helps in protecting the piston from scuffing, ensuring cleaner engines and minimising combustion chamber deposits with negligible port clogging and the ashless detergents prevent pre-ignition and spark plug fouling. Gulf Green 2T mixes readily with gasoline to ensure stable homogeneous mixture even at lower ambient temperatures.

Recommended Applications:

Gulf Green 2T is recommended for high powered 2-stroke motorcycles/ scooters operating under different conditions. **Gulf Green 2T** is suitable for both oil-injection and premix lubrication systems; follow manufacturer's recommendations for oil to fuel ratio and also suitable for air cooled 2-stroke gasoline engines used in all terrain vehicles, snowmobiles, lawn mowers and other portable implements.

Gulf Green 2T	Product Code: 1960
Specifications:	
Meets: API TC	

Typical Properties:	
Density @ 15°C, kg/m ³	873
Viscosity @ 100°C, mm ² /s	9.0
Flash Point, °C	184
Pour Point, °C	-36
