

Automotive Gear Oils

Gulf Gear EP

Product Description:

Gulf Gear EP is a high performance gear lubricant designed to provide effective lubrication in a wide range of automotive transmissions and axle drives where API GL-4 quality oils are specified. **Gulf Gear EP** is formulated from high quality base stocks and balanced extreme pressure additives to provide protection to gear components against wear and scoring. **Gulf Gear EP** offers protection against oxidation, degradation and rust & corrosion. **Gulf Gear EP** meets API GL-4 and US MIL-L-2105 specifications for automotive gear oils.

Features/Benefits:

Good Extreme Pressure and Antiwear properties protect against wear and scoring. High oxidation stability minimizes sludge and deposit formation facilitating longer gear and bearing life. Effective rust and corrosion protection reduces wear and extends component life. Better low temperature fluidity reduces wear and provides easy start-up at low ambient temperatures and good anti-foam properties ensure film strength for effective lubrication. Excellent seal compatibility helps minimize leakages and reduce chances of contamination.

Applications: For manual transmissions and transaxles requiring oils meeting API GL-4 and on-road passenger cars, light and heavy duty trucks, buses and vans. Also for off-highway equipment in construction, mining and agriculture. Other applications involving spiral bevel gears operating under moderate to severe speeds and loads and axles with hypoid gears operating under mild to moderate speeds and loads. Not recommended for automatic transmissions

Gulf Gear EP	SAE 80W-90 Product Code 2289	SAE 85W-140 Product Code 2214
PERFORMANCE SPECIFICATIONS		
API GL-4	US Army MIL-L-2105	

TYPICAL PROPERTIES :		
Gulf Gear EP	SAE 80W-90	SAE 85W-140
Density @ 15°C, kg/m ³	897	890
Viscosity @ 100°C, mm ² /s	15.4	28.4
Flash Point, °C	>200	>200
Pour Point, °C	-24	-18
