Greases

Gulf Crown MP 2.5

Product Description:

Gulf Crown MP 2.5 (Multi Purpose) is a high quality lithium saponified grease based on highly refined base oils and a lead free additive package. **Gulf Crown MP** combines good water repellence with excellent mechanical stability and high load carrying capacity. **Gulf Crown MP** outperforms traditional greases with respect to the temperature range and is far more adapted to marine environments than ordinary greases.

Application:

Gulf Crown MP is recommended for automotive, agricultural and industrial applications where the loads are high and the grease is prone to water wash out. **Gulf Crown MP** is also suitable for lubricating points on board ships as stern tubes, rudders, steering quadrants and bearings on deck, including anchor winches, cranes and gears.

Gulf Crown MP 2.5	
Consistency, ASTM D217	NLGI 2-3
Product Code	5000
SPECIFICATIONS:	
ISO 6743-9	L-XBCIB 2-3
DIN 51 502	KP2-3K-20
PROPERTIES:	
Colour	Blue
Dropping Point, °C	>180
Viscosity base oil @ 40°C/100°C, mm ² /s	280/20
Penetration 60 strokes, ISO 2137, mm/10	245-275
Temperature range continuous operation, °C	-25 tot +130
